**Subject: Certificate for assembling and testing Gas Absorption Chillers in I.R. of Iran**

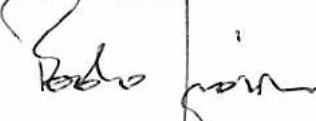

Dear Sirs,

With reference to the assembling and testing of Gas Absorption Chillers, we have audited the production line, the equipments and the test rooms located in the dedicated factory and they are in compliance with our specifications. Also, Yekta Tavieh Arvand Ind. is capable to reproduce Gas Absorption Chillers at the standard quality of the products manufactured by us.

For the above reasons we authorize Yekta Tavieh Arvand Ind. to complete, assemble and test Robur Gas Absorption Chillers (coming from the pre-assembled Robur SKD known as "hermetic circuit") in I.R. of IRAN according to our specifications, procedures and drawings. This authorization doesn't give to Yekta Tavieh Arvand Ind. any licence on the manufacturing of this so named "hermetic circuit".

Best Regards,

Paolo Fiorini
